Skill

- **Programming Languages:** PHP, Java, Python, C#, JavaScript, React
- **Databases/Os:** MySQL, NoSQL, Linux, window, mac
- **Tools & Platforms:** Git, Visual Studio Code, XAMPP
- **Soft Skills:** teamwork, Problem-solving, Effective, Communication, Management

Education

Bachelor of Computer Applications (BCA)

National College of Computer Studies, Kathmandu/Paknajol

Expected Graduation: 2026

+2 in Management (Computer Science)

New Zenith English Model School, Kathmandu/Dekwa Galli

Graduation: 2021

Project

Oceanic Delights: Fish Recommendation System

- Developed a smart web-based fish recommendation system using PHP, MySQL, and JavaScript for an aquarium e-commerce platform
- Implemented content-based and hybrid recommendation algorithms using cosine similarity and weighted scoring
- Enabled personalized fish suggestions based on user cart and purchase history, enhancing user experience and product relevance

Gender Classification System (Machine Learning Project)

- Built a machine learning model to predict gender using Python
- Utilized libraries like scikit-learn, pandas, and numpy
- Tested classification algorithms including KNN and Decision Tree for accuracy evaluation

QA Testing Project – ITTI Website

- Automated login and form validation tests using JavaScript and Playwright
- Handled XPath/locator debugging, dynamic elements, and wait conditions
- Ensured accurate error messages and field validations to improve user experience

Work Experience

Phye Gan Pvt. Ltd.

Photographer Diary

- Developed a full-stack web application using Laravel (PHP) and React (TypeScript) with RESTful API integration for scalable and secure backend–frontend communication.
- Designed and implemented core features including user authentication, album & photo management, profile customization, and real-time updates with optimized database performance.
- Built a responsive and user-friendly interface using React and Tailwind CSS, ensuring cross-device compatibility, clean UI/UX, and efficient state management.
